ING’s distribution plans in 2021 and beyond

ING's Distribution Policy

ING will adhere to the prevailing ECB recommendation to limit distributions, which will remain valid until 30 September 2021. At that time, the ECB intends to repeal the recommendation ‘in the absence of materially adverse developments’

- ING's distribution policy of 50% of resilient net profit amounts to €0.39 per share
- In line with limitations set by the ECB ING has distributed an interim dividend of €0.12 per share in February
- The €0.27 per share we have reserved for distribution after September 30th 2021

Distribution in 2021 and beyond

- We intend to distribute the remaining amount reserved for the FY2020 distribution (€0.27 per share) after September 30th 2021, subject to relevant approvals and prevailing ECB recommendations
- We intend to distribute the amount which was originally reserved for the final 2019 dividend after September 30th 2021
  - This could be in the form of cash and/or share buyback, subject to prevailing ECB recommendations and relevant approvals
- 50% of the resilient net profit in 2021 will be reserved for distribution, in line with our policy
  - Payment of interim dividend over 2021 to be delayed until after September 30th 2021, subject to prevailing ECB recommendations
- Over the coming years we intend to gradually reduce our CET1 ratio towards our ambition of ~12.5% (currently 15.5%)

Our response to the coronavirus pandemic

Our employees
- Around 80% of our employees working from home
- Holding frequent global surveys to measure employee sentiment and wellbeing
- Supporting parents with flexibility in working hours and time off
- Offering resources ranging from online childcare to time-management tips and access to coaches

Our retail customers
- Keeping a large part of our branch network open to support our customers and help them make the move to digital banking
- Supporting safe payment behaviour by increased limits for contactless payments
- Offering our regular financial health tools and resources to our customers, which are now especially useful

Our business clients
- Continuing our regular contact with customers to discuss their business outlook
- Offering payment holidays and credit facilities under government guarantee schemes for SME and mid-corporate customers
- Offering tailored solutions for larger corporate clients

Our society
- Matching employee donations to charities and supporting short-term relief initiatives in 25 countries
- Raised funds for the WHO/UNICEF global appeal to aid the most vulnerable children and their caregivers
- Supporting projects that focus on longer-term recovery in one of three categories: financial health, digital skills and social entrepreneurship

Payment holidays and government-guaranteed loans
- In 2020 we granted payment holidays to around 200,000 customers for a total of €19.4 billion in loans, 93% of those had expired by the end of 2020
- Monitoring is done through our early warning system, risk assessments and regular personal contact
- We also provided around €1.5 billion of government-guaranteed facilities to support our business clients
The main trends that continue to impact our business

These trends are not new, but they have been super-charged by the pandemic. This has increased the sense of urgency, and at the same time offers opportunities.

Growing impact of regulation.

Low and even negative interest rates.

Customers expecting an ever-improving mobile and digital experience.

Sustainability is at the core of society, with momentum to ‘build back better’.
Interest rate environment requires us to diversify income sources

Fees grew 5% YoY supported by investment product and package fees, compensating Covid-19 impact on lending and payment fees.

Looking ahead

• We continue to be guided by our **customer-centric purpose**

• Our **strategy remains relevant**, as underlying trends have not changed

• Think Forward is the ‘what’...

• We will now focus on the ‘how’ and ‘where’ ...
  • **... executing with rigour and certainty**

• ING will exit crisis in strongest possible way, by
  • Focusing on our customers
  • Building on our existing strengths
  • We believe our risk costs will revert from the 2020 peak towards the average level
  • And we will activate our distributions to shareholders as soon as the ECB recommendations are lifted

• See the proposal in the explanatory notes to the agenda
Ljiljana Čortan is a seasoned risk manager with wide-ranging banking experience that spans over 25 years, especially in complex, international and transformative business models.

“ING has a reputation of being one of the most customer-centric and innovative organisations in the financial industry, especially in the area of digital and data driven strategies to enhance customer experience. I was attracted to the strategy, culture and practices of an organisation that’s able to achieve such strong brand differentiation in an industry that is undergoing deep transformation and numerous challenges in the current environment. My experience will help keep ING safe, secure and compliant while becoming a data-driven digital leader”.
