Retail Banking Benelux

Bernstein Strategic Conference

Hans van der Noordaa
CEO Retail Banking Benelux

London – 20 September 2012
www.ing.com
Key points

• ING Bank continues to show solid results, strongly supported by Retail Benelux

• ING is a leading Retail Bank in the Benelux with an RoE of 17.9% in 1H12

• Retail Banking Benelux has contributed significantly to balance sheet optimisation

• Focus on retail deposits allows us to continue customer lending

• ING is well positioned to capture the ongoing trend (direct if possible, advice when needed) in Retail Banking with a focus on maintaining strong RoE
ING Bank posted robust results despite higher provisioning

Bank results (in EUR mln)

</table>

- Income increased slightly as higher client balances offset lower savings margins
- Cost base has been significantly reduced since 2008
- Additional regulatory costs of EUR 60 million in Belgium in 2011; 1H12 includes EUR 38 million reimbursement from old Belgian deposit guarantee scheme
- Cost measures announced in November 2011 to adjust to the changing environment while facing additional regulatory costs like Dutch banking tax (in 4Q12)
Retail Benelux has been a strong contributor to ING Bank’s capital generation

ING Bank core Tier 1 ratio

</tr>
</tbody>
</table>

Further strengthening of CT1 ratio

- The announced sale of ING Direct Canada and Capital One stake will lead to a pro-forma core Tier 1 ratio of 11.9%

Retail Benelux has consistently generated capital

- Since 2009, Retail Benelux has generated EUR 3.4 billion of core Tier 1 capital
- EUR 3.8 billion of net profits
- Moderate RWA increase of EUR 4.2 billion to EUR 71.0 billion

Regulatory Capital Added (in EUR bln)

ING Retail NL

ING BE
ING Retail Benelux well positioned to capture future trends in Retail Banking

For Customers: Easy and fair

- Customer centric culture, with care for customers
- Limited number of transparent products, serving all customer needs
- Consistent fair pricing
- Customer centric process management, with break-through simplicity
- Direct when possible, advice when needed

Underlying economics: Strong low cost model, stable business

- Superior brand, number one customer choice
- Prone to be direct, low credit risk
- Simplified product range
- Focus on direct channels
- Process excellence, low cost
Retail Benelux delivering on balance sheet optimisation
Managing the Bank Balance Sheet more efficiently under Basel III

Balance Sheet stable at EUR 900 bln

- Evolve investment portfolio into liquidity portfolio and continue to de-risk
- Reduce non-strategic trading assets and redesign products to mitigate CVA impact
- Grow customer lending and selectively shift towards higher margin areas; re-price to reflect increasing cost of capital

Ambition 2015

Strong capital generation to grow into Basel III requirements

Extend long-term debt profile and reduce reliance on short-term professional funding

Continue to build on strong deposit gathering ability as primary source of funding

<table>

* Based on IFRS-EU Equity
Retail Benelux contributes strongly to ING Bank’s balance sheet optimisation

<table>
<thead>
<tr>
<th>Focus on deposit growth</th>
<th>Adjust funding mix</th>
<th>Balance sheet integration</th>
</tr>
</thead>
<tbody>
<tr>
<td>• In the Netherlands, ING strongly increased the retail deposit base by EUR 10 billion since year-end 2010</td>
<td>• High quality Dutch mortgages offer a solid base to issue covered bonds</td>
<td>• Eliminate cross-border inefficiencies by creating self-sustainable balance sheets which are locally funded</td>
</tr>
<tr>
<td>• In Belgium, ING launched successful new products resulting in EUR 6 billion higher balances since year-end 2010</td>
<td>• Year to date, EUR 3.75 billion public covered bonds have been issued at an average spread of mid-swap + 74 bps</td>
<td>• Use of funding surplus in Belgium for international assets</td>
</tr>
<tr>
<td>• Targeting deposits with high liquidity value</td>
<td>• Total covered bonds outstanding EUR 27.5 billion with an average tenor of 7.5 years</td>
<td>• Re-price lending to reflect the higher cost of capital</td>
</tr>
</tbody>
</table>
In the Netherlands, we have selectively grown long-term lending while accelerating funds entrusted

- Mortgages are an anchor product for increasing cross-buy
- Focus on high quality of new production
- Demand for credit is low
- Uncertainty related to future interest deductability is limiting demand for mortgages
- Volume growth in business lending is low due to current economic environment and competition, mainly from local players

Retail Netherlands lending (EUR bln)

<table>
<thead>
<tr>

<tr>
<th>YE 2010</th>
<th>1H2012</th>
</tr>
</thead>
<tbody>
<tr>
<td>104</td>
<td>114</td>
</tr>
</tbody>
</table>

- ING has accelerated growth in funds entrusted
- Driven by strong inflows in fixed-term deposits and various savings campaigns
- 1 year fixed-term deposit campaign aimed at private individuals at end 2011/early 2012
- Total funds entrusted increased by EUR 7.1 billion in 1H12 of which EUR 3.0 billion in fixed-term deposits
- Interest rates on variable savings accounts have been declining since February 2012
Funding rich Belgian market allows for asset growth

Retail Belgium lending (EUR bln)

- Balanced growth in mortgages while increasing market share in business lending
- Pricing discipline maintained
- Stable demand for mortgages
- ING Belgium has good momentum in growing market share in business lending

Retail Belgium funds entrusted (EUR bln)

- Healthy increase in funding rich Belgian market
- Driven by introduction of new products
- Competition is fierce, primarily from other online banks
Retail Benelux contributed EUR 14 billion to balance sheet integration

Recent initiatives

- In 2011, EUR 11 bln of balance sheet optimisation was related to Retail Benelux
- This was largely driven by transferring securitised Dutch mortgages to other countries with excess funding
- Until July 2012, EUR 7.3 bln of balance sheet integration has been achieved of which EUR 1.9 bln of securitised Dutch mortgages and EUR 1.0 billion of Lease assets
- Pipeline remainder of 2012: EUR 3.0 bln
- Our success to date gives us comfort that we can do more
Retail Netherlands: maintaining a high RoE
ING Retail NL adapted to a changing environment

Customer Centricity
- Easy and transparent product offering
- Converged to distribution model “direct where possible, advice when needed”
- Leverage new technology to improve service levels, proximity and convenience (internet, mobile)

Operational Excellence
- Cost leadership will be a key strategic advantage
- Further process and IT improvements leading to:
  - More efficiency
  - Better client services
  - Focus on workforce to increase effectiveness
- Further cost reductions announced in November 2011 (Case for Change)

Balance Sheet Optimisation
- Increase growth in savings and fixed deposits
- Moderate growth in mortgages, focused on core customers
- Grow in attractive SME market using a relationship model
- Use pricing differentiation to reflect higher cost of funding

Case for Change
Retail Netherlands: maintaining a high RoE despite headwinds

Recent trends

- Return on Equity in 1H12 was 15.6%
- Income is under pressure driven by the low interest rate environment
- Risk costs are slowly trending up, largely due to higher provisioning for business lending

Savings rates are coming down in the Netherlands

- Top savings rate* in the Dutch market increased by ~60bps in 2011; a decline was initiated in February 2012
- ECB rates have decreased by 90 bps in the last 7 months putting pressure on the investment yield

Savings rates ING Profijt-rekening

Margins on lending stable despite higher funding costs

- Margins on lending reflect higher funding costs, competition for business lending and low demand for credit
- Margins in 1H12 back to a level comparable to 2009

Savings rates are coming down in the Netherlands

Lending margins indexed (2009 = 100)

* Average of top-3 in the market, base rates  Source: Marketing pricing
As retail cost leader in the Netherlands, ING improved its cost advantage significantly over the past years.

### Underlying expenses (EUR mln)

<td>2,428</td>
<td>1,199</td>
<td>1,171</td>
</tr>
</tbody>
</table>

- 13.4 %

### Cost base is further reduced

- Weakening economic environment, more stringent regulatory requirements and changing customer expectations are putting pressure on volumes & margins
- A cost reduction programme was announced in November 2011 with additional IT investments to offer better service to our customers in combination with a lower cost level (~2,700 FTE)
- Further process improvements by reducing complexity and streamlining workflows
- Additional IT investments to reduce costs while delivering faster and more accurate service

### Cost reduction programme announced in November 2011 (EUR mln)

<table>
<thead>

</tbody>
</table>

- Total annual cost savings of EUR 330 million to be realised in 2014
- This will offset the Dutch Bank tax which will be introduced in the fourth quarter of 2012
- Estimated impact Dutch Bank tax will be around EUR 220 million
Benefits from restructuring programmes go far beyond cost reductions

Aim is to increase customer centricity and operational excellence

- Product offering has been simplified and made more transparent
- Simplification of products made it possible to streamline the client processes and related client channels
- Operational excellence has become visible in:
  - measurable and predictable processes
  - service-oriented back offices
  - straight-through processing
  - strong centralised customer base
  - modern channels for day-to-day services

NPS improved strongly since the crisis

Bernstein Strategic Conference - 20 September 2012
ING is the leading internet bank in the Netherlands

ING is the leading internet bank

- Internet is the leading channel or usage of sales, with 60% of sales via internet
- # of ING customers with an online banking account is still growing (currently ~4 mln)

Ambition to be the number 1 in Dutch mobile banking

- Launch of ING App in November 2011
- By December 2011 already 0.5 million downloads
- The number of downloads increased to 1.4 million in June 2012
- More than 1 million activated users

ING channel usage: growth in internet usage (in millions)

- Branch visits
- Internet visits
- 2008
- 2011

ING App downloads

- December 2011
- March 2012
- June 2012
Dutch mortgage market: Despite high LTVs it is less risky than perceived

**Dutch Government policies**
- Mortgage interest is tax deductible for a period of 30 years
- In May 2012, changes have been announced for new mortgage loans
- Guarantee system for qualifying mortgages (NHG) up to EUR 320,000
- Withdrawal of subsidies for social housing

**Balanced price growth and shortage of houses**
- No price boom pre-crisis
- Relatively low level of owner-occupancy
- Number of single-person households increasing

**Regulation**
- Maximum loan-to-value (LTV)
- Introduction of stricter Code of Conduct limits borrowers’ debt/income and loan-to-value ratio as per 1 August 2011
- Law allows lenders to claim income and assets of borrowers in arrears

**Buffers through social security**
- Low unemployment rate compared to other countries
- Social security system provides unemployment benefits from 3 up to 38 months
- Financial compensation for layoffs and personal liability for mortgage taker
Dutch mortgages: limited repricing risk while underwriting criteria are more stringent

ING NL: 22% market share* (June 2012, outstanding)

ING Domestic Bank: Remaining interest period (June 2012)

ING Domestic Bank: Mortgage type

* Including WUB
The NPL ratio for Dutch mortgages stable despite house price declines

Non-performing loans ratio Dutch mortgages (%)

Average house prices* (x EUR 1,000)

Risk costs and write offs (EUR mln)

Risk costs expected to remain elevated

- Risk costs in 1H12 were EUR 90 million
- The higher level of provisioning was mainly driven by lower house prices
- NPL’s have remained stable through the last 5 years
- Further decline in Dutch house prices and increase in unemployment would lead to higher risk costs on mortgages, but we do not expect a dramatic increase

* Source: NVM

Risk costs business lending (in EUR mln)

- Risk costs have increased in 1H12
- Although NPL's for the total book remained relatively stable, the increase was largely driven by more cyclical segments like Transport and Construction due to the weakening in the economic environment
- High NPL's in Food and Beverage are largely driven by green house farming industry
- In addition SME showed a further weakening

Some segments more affected than others* (NPL, %)

Retail Belgium: high RoE business with pockets of growth
Retail Belgium shares the same strategic direction

**Customer Centricity**
- Improve service via modern distribution channels
- Renewed branch network
- Growing client base with high cross-sell ratios, maintaining high NPS

**Operational Excellence**
- Cost leadership will be a key strategic advantage
- Further process and IT improvements leading to:
  - More efficiency
  - Better client services
  - Focus on workforce to increase effectiveness

**Balance Sheet Optimisation**
- Stable RoE and capital generator
- Liquidity and funding provider to ING Bank N.V.
- Leveraging strong funding position in the liability-driven Belgian market
- Increasing pricing discipline to reflect higher cost of funding

Recent trends

- ING Retail Belgium has been consistently growing its client base
- Driven by its full product range and multi-channel distribution approach
- Almost 50% of payment traffic is done on-line
- Which has resulted in higher market shares in regulated savings and current accounts

Rapid increase in sales of products online

ING Retail Belgium: consistent growth in savings

- ING Belgium is growing funds entrusted in funding rich Belgian market
- Savings volume growth from individuals over the last year was driven by Orange Savings account
- ING Belgium is the only large Belgian bank with net inflow of savings in 2011 (survey De Tijd, January 2, 2012)
- ING Lion Premium launched on April ’12, is the first savings account in Belgium that customers and prospects can quickly open via their Smartphone

**Business lending portfolio by industry***

- Institutions
- Transport
- Construction
- Real Estate
- General Industries
- Retail
- Services
- Food and Beverage
- Other
- SME

**Risk costs expected to remain elevated**

- NPL’s for the mortgage portfolio remained stable at around 2%
- This relative high % is largely driven by a longer legal process
- NPL’s for the business lending portfolio at roughly 5%
- This is largely driven by more cyclical segments like Construction, Real Estate and Food and Beverage

* Risk based
Key points

• ING Bank continues to show solid results, strongly supported by Retail Benelux

• ING is a leading Retail Bank in the Benelux with an RoE of 17.9% in 1H12

• Retail Banking Benelux has contributed significantly to balance sheet optimisation

• Focus on retail deposits allows us to continue customer lending

• ING is well positioned to capture the ongoing trend (direct if possible, advice when needed) in Retail Banking with a focus on maintaining strong RoE
ING Group’s Annual Accounts are prepared in accordance with International Financial Reporting Standards as adopted by the European Union (‘IFRS-EU’).

In preparing the financial information in this document, the same accounting principles are applied as in the 2011 ING Group Annual Accounts. All figures in this document are unaudited. Small differences are possible in the tables due to rounding.

Certain of the statements contained herein are not historical facts, including, without limitation, certain statements made of future expectations and other forward-looking statements that are based on management’s current views and assumptions and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. Actual results, performance or events may differ materially from those in such statements due to, without limitation: (1) changes in general economic conditions, in particular economic conditions in ING’s core markets, (2) changes in performance of financial markets, including developing markets, (3) consequences of a potential (partial) break-up of the euro, (4) the implementation of ING’s restructuring plan to separate banking and insurance operations, (5) changes in the availability of, and costs associated with, sources of liquidity such as interbank funding, as well as conditions in the credit markets generally, including changes in borrower and counterparty creditworthiness, (6) the frequency and severity of insured loss events, (7) changes affecting mortality and morbidity levels and trends, (8) changes affecting persistency levels, (9) changes affecting interest rate levels, (10) changes affecting currency exchange rates, (11) changes in investor, customer and policyholder behaviour, (12) changes in general competitive factors, (13) changes in laws and regulations, (14) changes in the policies of governments and/or regulatory authorities, (15) conclusions with regard to purchase accounting assumptions and methodologies, (16) changes in ownership that could affect the future availability to us of net operating loss, net capital and built-in loss carry forwards, (17) changes in credit-ratings, (18) ING’s ability to achieve projected operational synergies and (19) the other risks and uncertainties detailed in the Risk Factors section contained in the most recent annual report of ING Groep N.V. Any forward-looking statements made by or on behalf of ING speak only as of the date they are made, and, ING assumes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or for any other reason. This document does not constitute an offer to sell, or a solicitation of an offer to buy, any securities.
