... but how do we maintain this position of strength?
Trends in the banking landscape continue to evolve...

1. Regulations and low interest rates
2. Expectations set by tech giants, not banks
3. Banking products are now commodities
4. People live their lives on smartphones

The winners we see share key attributes:

**Frictionless and personal digital experience**
The bar is set by players outside the industry: personal, instant, relevant & seamless

---

**Connecting value chains**

---

**Open platforms**

---

What does this mean for us?

**Deliver a differentiating experience by being clear, easy, transparent, empowering, always on, real-time and relevant**

---

**Offer a differentiating experience and become a true love brand, to be the go-to place for financial & finance-related decisions**

---

**Leverage in-house and external data to build relationships and enable faster decision-making and better client solutions**

---

**Think beyond banking, driving traffic to our platform and we need to be where our customers are on other platforms**
Our platform ambition: the “go to place” for finance-related needs
