Why we’re here

ING's purpose is to empower people to stay a step ahead in life and in business. This purpose guides us in everything we do.

It represents our conviction in people’s potential. We don’t judge, coach or to tell people how to live their lives. However big or small, modest or grand, we help people and businesses to realise their own vision for a better future.

We know people don’t need banks, they need banking. Our promise to customers is to make banking frictionless, removing barriers to progress and giving people confidence in their ability to make decisions and to move forward. It frees them from the constraints that stand between them and their passions and encourages them to do more of the things that give their lives meaning.
ING is a global bank with a strong European base. Our 57,000 employees serve around 38.9 million customers, corporate clients and financial institutions in over 40 countries. Our purpose is to empower people to stay a step ahead in life and in business.

Our products include savings, payments, investments, loans and mortgages in most of our retail markets. For our Wholesale Banking clients we provide specialised lending, tailored corporate finance, debt and equity market solutions, sustainable finance solutions, payments & cash management and trade and treasury services.

Customer experience is what differentiates us and we’re continuously innovating to improve it. We also partner with others to bring disruptive ideas to the market faster.
What we promise our customers

Clear and easy
Banking doesn’t have to be difficult and time consuming. It’s all about clear products, plain language, fair prices and simple processes that save both time and money.

Anytime, anywhere
Banking should be possible anytime and anywhere, irrespective of where and how people access our products and services.

Empower
The best financial decisions are informed decisions. Customers want relevant, up-to-date information at their fingertips. They need to understand the available choices, and their implications, both today and for the future.

Keep getting better
Life and business are about moving forward. We will keep looking for ways to improve. With new ideas, new solutions and new approaches to make things easier for our customers. That way, we can all stay a step ahead.
We want to help create a healthy planet with prosperous people. A planet not threatened by the climate crisis. People with basic human rights, decent work, good labour conditions and, ultimately, good financial health.

At the very least, we must ensure that our own operations are in line with the low-carbon economy of the future. That our employees are treated well and that neither we nor our suppliers infringe on human rights.

But as a bank with hundreds of billions of euros flowing through our books, we have a huge opportunity — and responsibility — to make an impact for the better. We must bring aspects of fighting climate change and protecting human rights into our dialogue with clients and financing decisions.

Being sustainable is in all the choices we make—as a lender, as an investor and through the services we offer our customers.

We believe we can make the most impact and address the biggest challenges in two areas: climate action and financial health.

Our first quarter 2021 in numbers

“ING delivered a strong performance in the first quarter of 2021. The sharp rebound in net profit compared to the year-earlier period was driven by a good increase in fee income and lower risk costs.”

Steven van Rijswijk – CEO ING Group
